SUMMARY

Recent Graduate with a strong academic background in information technology (Bachelor's, 2023). Highly skilled in core front-end technologies (HTML, CSS, Bootstrap, and JavaScript), with proven proficiency in Adobe Photoshop. Proven ability to work under pressure and proven experience in the Microsoft Office suite.

PROFESSIONAL EXPERIENCE

Ministry of Communications and Information Technology (MCIT)

11/2025 – Present

Front-End Web Development Trainee (Angular)

Egypt Digital Pioneers Initiative (DEPI) - Round 4

In collaboration with **Next Academy**

EDUCATION

The Egyptian E-Learning University

2019 – 2023

Bachelor's Degree in Computers and Information Technology (GPA: 2.68)

Assiut

Graduation Project: Stock market forecasting using Machine Learning techniques (Grade: Excellent A)

PROJECTS

Inventory and Sales Management Website

03/2026

This was my first real project for a client with simple requirements. The client needed to track remaining stock and sales instead of manually recording them. I built a website that categorizes products and automatically updates inventory after each sale. The website significantly reduced inventory errors and streamlined the workflow.

Technologies: HTML, CSS, Bootstrap, JavaScript, Firebase Authentication, Firestore, Firebase Hosting

Dental Website

03/2026

I developed a responsive landing page for a dentist to facilitate patient access to the doctor and information about services, build patient trust, and enable quick communication via phone or WhatsApp. I focused on a clear structure, ease of use, and responsiveness across different devices.

Technologies: HTML, CSS3, JavaScript, Responsive Design

Portfolio

02/2026

Designed and developed a modern portfolio website to showcase my projects, technical skills, and professional background. The project helped organize my work in a clear structure and present it in a visually engaging way for recruiters and potential clients.

Technologies: HTML, CSS, JavaScript, Responsive Design

Vital Pharmacy Landing Page

09/2025

Developed a modern, fully responsive landing page for a pharmaceutical service. Achieved adaptive design using optimized CSS Media Queries and implemented advanced styling techniques to ensure high visual appeal and code mastery.

Technologies: HTML5, CSS3, CSS Media Queries, Glassmorphism

SKILLS

Web Development

- HTML5, CSS3, Bootstrap (Responsive Design)
- JavaScript (Foundational)

Programming Languages

Java (Good), C++ (Good), Python (Good)

Problem-Solving

Complex technical analysis and effective solution delivery

Adaptability & Learning

Rapid integration of new technologies, tools, and best practices

Software/Tools

Photoshop, MS Office Suite (Word, Excel) Certified

Working Under Pressure

Maintaining quality and adhering to deadlines

Teamwork & Communication

Effective collaboration across cross-functional teams

Quality Focus

Attention to detail, superior quality, and adherence to project standards

CERTIFICATES

Egyptian Armed Forces

Military service completed (Sep 2025); acquired certificate of proficiency in MS Office and Photoshop during service.

VOLUNTEER

Ahl Abnub Charity Association

Managing social media content, ensuring prompt response to general inquiries.

Design visual identity and advertisements using Adobe Photoshop to support campaigns.

2021 – Present

Assiut
